EDMONTON, ALBERTA, WEDNESDAY, JULY 23, 1962

Water Shortage May Curtail Town, Municipal Industrial Development

At the July meeting of the Commission, a preliminary report on Water Supply—Sewage and River Pollution prepared by L. Plotkin, planning technician, was taken under consideration.

This report showed that a crisis is developing, particularly in the towns and municipalities surrounding the City of Edmonton, through lack of facilities for the distribution of water supply. The possibility of industries becoming established in the smaller centres is curtailed by a shortage of water for industrial purposes and indeed, if the rapid industrial growth on the fringes of the city continues and there seems to be every possibility of this, Edmonton itself may well face a major problem in the matter of water supply. Attention was also drawn to the fact that increased river pollution, due to the rapid building of the city and establishment of industries, is also a problem which will require solution in the not too distant future. The commission was impressed with the urgency of the situation and while solution of the problem would appear to be beyond its scope, it felt that a further examination by the technical staff should be made and all possible pertinent data assembled, and, if possible, a complete report prepared for the August meeting of the Commission.

Mr. Gentler, planning economist, presented a report on his economic survey of the town of St. Albert, which tended to show that the growth and prosperity of the smaller towns in the Edmonton vicinity is being favorably affected by the industrial boom now experienced by the city. St. Albert itself is resisting the pull of the city; grain marketing and patronage of the town stores continue to increase despite the proximity of the city. The report pointed out that the social and recreational factor should not be underestimated and stressed the value of the work done by the Community League of St. Albert.

A smaller town, by developing local social and recreational activities, enhances its attractive force and helps to offset the "lure of the city" and Community League efforts can help greatly in this direction.

The attention of members was

called to an increasing demand for the establishment of light industry in the "B" Zone greenbelt on No. 2 Highway south of the city; and the danger of ribbon development along that highway. Mr. Plotkin pointed out that the logical area for such industries would be on the proposed ring-road around the city and felt that it is altogether desirable to proceed with this project on the south and south-east as soon as possible. He felt the prospect of industrial development in the south-east of Edmonton to be particularly bright, as a CNR spur line is projected for that area and the Trans-Mountain Pipe Line will pass through that district.

The Commission felt the Outline General Plan should be maintained as far as possible and voted to maintain this plan, which limits industrial expansion to the south. The technical staff was instructed to investigate and find out whether, for any reason, the industrial limitations are impractical, and if so, to suggest what modifications might be considered.

Senator Stambaugh To Speak For Liberals

Senator Stambaugh will be guest speaker at a public meeting to be held in Gibbons on Friday, July 25, at 8:30. Senator Stambaugh will be speaking on behalf of A. Sotter, Liberal candidate for Morinville Constituency. Everyone is cordially invited to attend this meeting.

W I Meets July 29

ST. ALBERT The regular monthly meeting of the St. Albert Women's Institute will take place Tuesday, July 26 in the Public Library Community Hall at 8:30 p.m. All members are urged to attend, as final plans for the community fair, Aug. 13, will have to be made.

Gamble of Spruce Grove; Mat Hittinger and Mrs. Laura Gibeau of Morinville.

Election committee consisted of Wm. Krauskopf of Morinville, Jack Atkinson of St. Albert and George Gamble of Spruce Grove.

Press representative chosen was Oscar Hittinger.

Mr. Saffin gave his report. He touched on organizational work, state of sub-districts, central board meetings, provincial conventions, wheat conference at Regina, sand and gravel sale, freight rates and the Crown's Next Pass agreement and other things. He stated that the membership of the district was at a new high but that much work still had to be done.

The financial report was then given.

Mrs. Olive Harrold, director of

GOING PLACES — A smiling Joan Penny typifies passenger reaction to the new short form inter-line ticket being introduced today by the Canadian National Railways. The new booklet ticket replaces the former unwieldy strip of coupons, like the seven-leaf one draped around her neck, which has been in use over the past years for travel on two or more rail lines. The new ticket is compact; is easily read and refunds on unused portions are speeded because the ticket contains all pertinent information as to routing and fare paid.

Plans For the New School At Legal Approved By the Divisional Board

The regular monthly meeting of the Divisional Board of the Sturgeon School Division was held on Thursday, July 10, at the Divisional Office at Morinville.

The chairman called the meeting to order at 10 o'clock. All members of the Board were present with the exception of Mr. Messier who was attending a convention in Montreal. Mr. Scott, superintendent and Mr. Meaden, secretary-treasurer, were present.

On motion of Mr. Cunningham the minutes of the meetings of June 12 and 20 were approved. The meeting held on June 20 was a special meeting which was called for the purpose of answering the criticism regarding the costs of the St. Albert School.

The Divisional Board had asked members of the Council of the Town of St. Albert to attend this meeting in order to hear a first-hand account of the costs of the St. Albert School.

The following members of the Town Council attended this meeting: Mayor Veness; Councillors Geo. Gaultin, C. Brodeur and Dr. Guts. Mr. Chas. Gould, secretary-treasurer, was also present. Mr. W. H. Deedman, contractor was also present as well as Mr. George Wilson, representing Patrick Campbell-Hope, architect.

The chairman, Mr. Chauvet, explained the purpose of the meeting, which would be an endeavor to arrive at a satisfactory explanation regarding the costs of the St. Albert School. The chairman then called on Mr. Scott, who was the Official Trustee, at the calling the meeting to order, ex-

plained the contract for the St. Albert School was let, to give an account of the costs involved.

Mr. Scott complied with this request and gave details of all costs, which included the heating contract, and extras which had been ordered by the architect, and approved.

Mr. Deedman, contractor, gave a full explanation of the extra charges over and above the original contract, all of which had been ordered by the architect and approved by him.

Extra costs had been found necessary in order to satisfactorily complete the project and the explanations given by Mr. Deedman were found to be quite satisfactory.

Mr. Wilson, representing the architect, said that the St. Albert School had cost considerably less, on a cubic foot basis, than other comparable schools built at the same time.

Mr. Veness asked the Divisional Board to furnish a written statement showing all details of the costs of the St. Albert School for the files of the Town Council. The Divisional Board agreed to this request and a statement, as requested, was sent to the secretary-treasurer of the Town of St. Albert.

Mr. Veness expressed the thanks of the Council for the courteous (Continued on Page 4)

Children Enjoy Girls' And Boys' Farm Camp

ST. ALBERT — Misses Mary Kennedy, Bertha Zylstra, Sophie Schuda and Jennie Luszczewski report a very enjoyable week at the Boys' and Girls' Farm Camp at the Edmonton Exhibition. All took part in the stock parade in front of the grandstand on Friday morning.

These camps are well supervised and provide an enjoyable and educational holiday for farm boys and girls.

Thursday last was 4-H Club rally day at the Edmonton Exhibition. Club leaders Mrs. E. A. Atkinson, Mrs. A. Lavoie, Mrs. K. Bonnevillie and Mrs. A. Kennedy each took three club members to the fair for the day. A banquet was provided in the UPER booth in the evening and later all club members and farm camp boys and girls attended the grandstand performances.

The Department of Agriculture and the Exhibition Association deserve a hearty vote of thanks for the enjoyable day provided for these boys and girls.

Garden Fair Notes

ST. ALBERT — As the time draws near for the Community Fair in St. Albert August 13th to be exact, it is thought that a few pointers on exhibiting flowers and vegetables would be of help to any who are going to show for the first time. It might also encourage others to show their garden products so that other people can see and enjoy them.

We shall discuss preparing a flower exhibit first. In this there are a few hints we can follow with almost any kind of flower. Flowers for show are best if you pick them early in the morning or during the evening, then put the stems deeply in water and stand them in a cool basement for several hours. Be careful you don't get water on the petals.

Use containers suitable for the type of flower to be displayed when exhibiting. The container should be heavy enough that it will not tip over easily. Colorful containers should not be used as you are showing the flowers, not the containers. One mistake we all make when beginning to show is to use too many flowers in a container, or use a container that is too small. Thus we crowd the exhibit.

Rather than crowd the flowers, we should have them well separated and show well above the top of the container. Some people put paper in the bottom of the container to prevent the stems sinking too far down. Another fault is that in mixed bouquets we use too many colors: two or three colors that harmonize are better than five or six that clash with one another.

To describe in detail what the judge looks for in each kind of flower would take too long; but in general for all flowers you want and need are three in sturdy periods. — Richmond Times-Democrat.

(Continued next week)

In Fact

"The teen-ager should get nine hours sleep," and in fact many do—six in bed and three in study periods. — Richmond Times-Democrat.

90 Delegates Attend Annual Convention Of FUA Districts

The annual convention of the FUA of District No. 5 was held recently at Onaway with approximately 90 delegates and visitors attending. Extremely bad roads is believed to have kept many more persons away.

The director, Mr. Saffin of Morinville called the convention to order and Roy Wahl gave the invocation.

Angus McGillivray of Morinville was chosen chief chairman, Charles Seeler of Meadow View and Herb Saunders of Cardiff were chosen assistant chairmen.

Mrs. C. D. Fair of Strathely Plain was chosen to assist the district secretary.

The credential committee was headed by Jack Fair.

On the resolution committee were Frank Hall of St. Albert; Tod

EDITORIALS

Farm Policy

The aftermath of two world wars with intervening depressions has brought about a complete change in governmental attitude toward agriculture. The historic attitude towards farming and the marketing of farm products prior to 1914 was that of non-interference by governments. The great depression was the main motivating force which brought about striking changes.

Today a political party could not achieve power in the United States if it opposed the farm policy now in effect. That policy provides for floor prices under the principle of unperishable farm commodities based on a parity figure calculated to sustain farm buying power.

Such a program has cost the United States government large sums of money. Consumers have also had to pay a reasonable price for their food. At the same time, United States farmers have enjoyed price security and have increased production to a substantial degree.

The Canadian government has developed a modest policy of price protection for farm commodities; it has not approached the generosity of what the United States has done for its farmers. The cost to the Canadian public has been comparatively slight. Of the \$200 million appropriated by Canada's parliament for farm products price protection some years ago, only \$10 million has been spent, according to Rt. Hon. J. G. Gardiner, minister of agriculture.

Those who oppose the policy of price protection for farm products are living in an antiquated agriculture. Farmers have seen how business interests develop price protection through close organization. Those same farmers are determined never again to expose themselves to the vagaries and uncertainties of the speculative market which is unable to provide them with any kind of price protection.

A Man-Made Satellite

Recently, Werner von Braun, in a lecture delivered in Huntsville, Ala., declared that it was possible to build a wheel-shaped satellite 250 feet wide that could travel around the earth in about two hours, maintaining a distance of about a thousand miles from this world.

Three German engineers, U. T. Bode-wadt, R. Hanisch, and R. Engle, think that the most practical orbit for an artificial satellite is one about 365 miles away. Their calculations indicate that to build a 20-man, 510-ton outpost would take about three years and would involve about 375 flights by feeder rockets.

It is interesting to note that despite the many difficulties that must be overcome before an artificial satellite can be placed out in space, the most competent scientists agree that the project is possible.

We should remember, however, that the idea of an artificial satellite was discussed about a generation ago by a German engineer, Herman Oberth. His idea was that the satellite would be a filling station for rocket ships on their way to the moon. He also had the idea of mounting on the satellite a mirror two miles in diameter to catch the rays of the sun and to generate about 10 million horsepower. Oberth pointed out that this giant mirror directed at the earth could boil away small lakes or reduce a community to ashes.

It is indeed sad to note that military needs and the art of destruction have carried the scientists further in the development of rockets and atomic energy than our many peacetime needs.

Note and Comment

"The federal by-elections, the election in Saskatchewan, the election in British Columbia—all bad news for the Liberals. And the election in Quebec still to come," chorales the Ottawa Journal. But what have the provincial elections done for the Conservatives? They elected not one in Saskatchewan, fewer than any other major party in British Columbia—and will they even have candidates in Quebec?

Wisdom On the Farm

An affection invented by those failures who forsook the road to happiness to seek easy success in cities, that the dull-witted stayed on the farms, has ceased to circulate.

Time has proven that it took more wit and wisdom to reap the richer rewards of a farm home than it did to achieve true success in any other calling.

The wise young men and women see in the time art of farming futures full of opportunities and the rich reward of fulfillment.

—The Rural Scene, Midland

Woman Against the Sea

Mrs. Anne Davison has left England for the West Indies in a twenty-three-foot vessel, called the *Felicity Anne*. The last time Mrs. Davison left England in an attempt to cross the Atlantic, she was accompanied by her husband and they sailed in a seventy-foot ketch, called the *Reliance*.

The *Reliance* cracked up in a gale in the English Channel and Mr. Davison was drowned trying to reach shore safely. Mrs. Davison survived and has now set out on a second effort—this time alone.

An Atlantic crossing in a sail-boat as small as the twenty-three-footer, which Mrs. Davison is using, is a tricky business and at the mercy—to a large extent—of weather over the Atlantic. Mrs. Davison is heading for the West Indies, in an effort to make use of the prevailing winds and will need all of her skillful seamanship and strong constitution to complete the crossing successfully.

One cannot help admiring Mrs. Davison's courage, even though her judgment might be a bit less deserving of praise.

Perpetual Motion?

Commander Ivan Monk, of the Navy's Bureau of Ships, has obtained a patent for a rotary engine, powered by atmospheric energy. It will run for years without fuel and requires only a small amount of water to operate. The engine draws its power from differences in temperature.

Sealed within the engine is a liquid with a low boiling point that alternately condenses (in a cylinder cooled by evaporation of water from a wick) and vaporizes (in a hollow wheel).

The uneven distribution of liquid in the spokes causes the wheel to turn.

Commander Monk kept a gadget like this in operation on his desk for over a year and now he is convinced that it might operate for many years at a time, as long as there is water. That is, perhaps, the nearest approach to perpetual motion yet developed by man, although the naval officer's gadget is of little practical use.

Brigadier in a Hurry

Commons Hansard

H. W. Herridge (Kootenay West): I was coming to Ottawa for this session, and the train stopped at a prairie city for 40 minutes. Like most people, I got out of the train and walked around the station.

I went to get back about 20 minutes before the train left. A C.P.R. constable was standing there. He said: "I am very sorry but you cannot get on. They are switching sleeping cars, or something." So we stood there. In front of me was a lady with a baby in her arms.

Along came a brigadier and he said: "Stand aside, please." So the lady with her baby in her arms stood aside, and he went on to the platform and got in a coach. I said to the C.P.R. constable: "Why did you let him through and keep the mother with her baby in her arms standing here for 20 minutes?"

He said: "Sorry, sir, that is orders; he is a brigadier." That shows a complete lack of democracy and of the things we stand for.

The wise merchant is he who puts the "ad" in trade.

Bible Today

For what nation is there so great, who hath God so high unto them, as the Lord our God is in all things that we call upon Him for?

—Deuteronomy, IV: 17.

INCREASED MUNICIPAL DEBTS EXCEED LARGE PROVINCIAL SURPLUSES

By E. A. COOK

Promises of increased grants to municipalities made by Mr. Manning as his nomination convention has increased a flood of demands by ratepayers of cities, towns, villages and municipal districts. What is their rightful share of government responsibility? From whom should the money come to meet their obligations?

PROVINCIAL REVENUES UP

Bonuses for the right to drill for oil, on lands where the mineral rights are vested in the government of Alberta are swelling the bank accounts of the province. Meanwhile the actual drilling, pipeline development and use of exploration equipment has doubled and tripled the financial load on the junior governments, municipal and school.

MUNICIPAL DEBTS UP

Costs of road construction and maintenance, drainage, weed control, school telephones, and general administration have increased by leaps and lunges, while the provincial government can brag of surpluses and talk of a debt-free province. But cities with increasing, unpaid in some instances, municipal debt has surged up and exceeded the provincial surpluses. The net result to the Alberta ratepayer is an increase in debt rather than any lessening in the demands to pay and pay.

PROVINCIAL GRANTS UP—BUT

Repeated requests to the provincial cabinet and departmental heads have resulted in nothing more than a generalized stepping-up of government grants. These

have not begun to meet the increased demands on the treasuries of local governments. Municipal districts have had their budgets doubled and tripled. Towns and villages have been faced with new housing problems, sanitation, necessitating water mains and sewage systems, and additions to administrative staff and quarters.

IMPOSSIBLE TO CARRY ON

Increased expenditures have reached a point where it is impossible for them to meet the responsibilities imposed by the provincial statutes from the sources permitted by the same statutes. Assessment, taxation, licenses, fees and grants from the provincial bases for municipal revenue. All these are ringed around by provincial rules, most of which are limiting factors. The Act under which local governments operate are designed for normal conditions. They do not meet the need of transition and sudden expansion.

NEW DEAL DEMANDED

"If returned to power in 1953," Mr. Manning says grants will be increased. Many municipal officers are prepared to deny that grants even if increased can meet the situation. What is urgently needed is a complete survey and rewriting of the different acts that deal with the rules covering responsibility and income of municipalities in Alberta.

What is being demanded is decentralization of power, relieving the treasuries of the last decade. The ratepayer through his elected representative must have his say. Complete provincial government control with puppet administrators is a present threat in Alberta.

Voice of the People

SOCIAL SECURITY

When a fallacy is stated as a fact, particularly by a man in a position of high authority, much effort should be made to present for public consideration the rebuttal opinion.

The Hon. Paul Martin, federal cabinet member, is reported in the press as having told a convention of school trustees that he has proved beyond question that, quite apart from what they do to provide increased security and better health and well-being for individual citizens, measures of social security have an important effect in giving stability to a nation's economy and acting as a pillar of prosperity.

It is questionable that any of Mr. Martin's assumptions have been "proved beyond question." For one thing, social security measures do not give stability; they are destabilizing to the economy because they are inflationary. They tax away the fruits of labor of the hard-working and thrifty and give them to persons of a lower order of productivity. The latter then have spending money for which they have produced no corresponding volume of goods and services.

Also, in this compulsory transfer of income the government takes part of the money to pay to civil servants who themselves produce nothing. With more and more money chasing fewer and fewer goods, retail prices rise. Statistical proof of what the Canadian government's policy of inflationary social security transfer payments has helped to do in prices is to be found in Canadian government figures. In 1942, when the first social security enactment was placed on the statute books, retail prices were 10.9 per cent above the 1935-36 average. In April of 1952 they were 117 per cent above the 1925-29 average.

If the pillar of prosperity of this country is going to be social security payments, our people are on a very shakily pillar indeed.

THE LIGHTER SIDE

Live Disposal Unit

The fancy questionnaire a household appliance company used to survey Iowa housewives brought equally fancy replies to the question: "What make of garbage disposal unit do you use?" one woman wrote: "Four legs."

Use Rich Words

"There is a great difference between the right word and the word that is almost right. For instance, you can call a woman a klutze, but not a cat; a mouse, but not a rat; a chicken, but not a hen; a duck, but not a goose; a vision, but not a sight."

No More, Please

This little girl, had been in mischief all day long, and her mother punished her all day long.

Finally, just before supper, she was especially naughty and sassied her mother to bed. So for punishment her mother sent her to bed without any supper for being so naughty.

When she was ready for bed, she knelt to say her prayers. At the end of her prayers her mother was surprised to hear her say: "And God bless Mommy and Daddy, but please don't send them any more children, 'cause they don't know how to take care of the one they've got!"

SEEDLING and HARVEST

AGRICULTURAL FAIRS

The frequent remark of farmers, "I saw it at the Fair," probably tells best how important agricultural fairs are in creating interest in new solutions to major farm, home, and community problems. In spite of the many changes in rural living in Western Canada that have been brought about in recent years by the mechanization of agriculture, the trend toward larger farm units and the mobility of farm people the country fair is still an important force in helping to unify our rural communities.

A Vital Activity. The country fair performs functions which no other activity is able to do. It affords farmers an easy and pleasant opportunity to meet their neighbours and local leaders. It gives the farmer and his family an opportunity to display their most highly improved crops, livestock and household arts. This bringing together of the best farm products of the community not only stimulates a healthy local competitive spirit, but develops the interest of those who are there. In plain words, country fairs stimulate pride in good farming and home-making, and a desire for community advancement.

Educational Exhibits. No fair is complete without well-planned and attractive educational exhibits—displays which give farmers the latest agricultural information resulting from research and demonstration. This is the purpose for which the exhibits of the Line Elevator Farm Service are prepared and displayed. Their main aim is to help solve major farm and rural-life problems. This summer our "Agricultural Show on Wheels" will visit many fairs in Manitoba and eastern Saskatchewan. A special invitation is extended to farmers and grain buyers to visit our exhibit this summer. And remember too, your Agricultural Society needs a fund deserves your interest and support. Let's keep our Agricultural Fair going! Be sure and "take in" your own local fair this year.

Mother's Right

Father: "Mabel, that young man of yours, stays too late when he calls. Hasn't your mother something to say to you about that?"

Mabel: "Yes, father, mother says men haven't changed a bit."

Wrong Method

Composer: "I got tight in order to compose a new drinking song." Friend: "Did it work?" Composer: "No, I couldn't get beyond the first two bars."

Knows Everything

Green: "Now perhaps I'll be permitted to point out a few of your defects."

Bride: "It won't be necessary, darling. I know them. They kept us from getting a better man than you."

In Case of Accident

The overnight millionaire wanted the best of everything. He went into a music shop and asked to see their most expensive violin for his son. The assistant brought out a beautiful Stradivarius, saying, "This is a 1720 Strad, priced at \$10,000."

The millionaire hesitated a moment, then remarked, "You say it was made in 1720 and that it costs \$10,000?"

"That's right."

"But tell me, is the company that made this fiddle still in business?"

"Of course not," exclaimed the assistant in shocked tones.

"Then it's no good," said the rich man, definitely. "What would I do for spare parts?"

Hard of Hearing

The rooster was visiting one of his parishioners, an elderly lady, afflicted with deafness. She expressed her regret at not being able to hear his sermons.

Desiring to be sympathetic and to say something consoling, he replied, "You haven't much to hear."

"So they tell me," was the disconcerting reply.

Life's Sweetest Story

The old couple had just celebrated their golden wedding anniversary. Now all the guests were gone, and they sat by the open fireplace, hand in hand, with her head on his shoulder, and reminisced.

"Mary," he said tenderly, "You're still my sweetheart—in fact, I've never had another sweetheart because I never found anyone as sweet and beautiful as you."

"Henry," she replied, "you're as big a liar as ever, and I believe you just the same."

Eleven-Year-Old Voyager Undaunted.

VANCOUVER. — An 11-year-old girl, Justice Wilson, of Edinburgh, Scotland, completed a long-cherished dream recently when she travelled unaccompanied to Vancouver to visit her grandmother, Mrs. Martha Fraser.

It all started when her grandmother left Edinburgh to settle in Vancouver five years ago, and Justice dreamed that someday she would visit her. The youngster recently left her parents, Mr. and Mrs. George Wilson of Edinburgh, to make her first trans-Atlantic plane trip to Montreal and then board the Canadian National Railway "Continental Limited" to Vancouver.

The idea of travelling alone in a new country didn't scare Justice a bit, for she was determined to visit Mrs. Fraser and nothing would sway her from that objective. She will stay for three months, then return to Edinburgh and to school in the fall, once more travelling alone.

\$1 for BRIGHT SAYINGS

The Editor will pay \$1.00 for each child's saying printed. To qualify, items must be true, personal remarks of a child, signed in the margin. Address: Bright Sayings, P.O. Box 4848, South Edmonton.

Children are cunning and in manoeuvring to gain their point more clever than given credit for, as in the case of my little niece.

Coming to her grandmother, she said, "Grannie, some grandmas are so old and grumpy and can't do anything. But you are not old and wrinkled, Grannie. You can do anything." Then lifting up her doll she said, "Grannie, will you sew the arm on my doll?" —G.R. Sanguita, Alberta.

My little granddaughter, age four, was out in the yard last spring when the first thunder storm of the season came up. At the first crash of thunder, the screen door was heard to bang, and into the kitchen she fled. "Oh, Mummy," she said, "I just heard the temperature fall!" —Mrs. G. Huff, R.R. 4, Edmonton.

BEEMAN'S CHINCHILLA RANCH

Plans For the New School At Legal Approved By the Divisional Board

(Continued from Page 1)
 interview afforded to his Council, and said that the explanations and figures as given would be received in the good faith in which they had been presented.

On the morning of July 10 at 10 o'clock, Mr. F. J. C. Seymour, representing the Alberta Teachers' Association, called to interview the Divisional Board. The purpose of this interview was to endeavor to reach an agreement with respect to teachers salaries, which would be satisfactory to the Divisional Board and the teaching staff of the Sturgeon School Division.

An offer was made to Mr. Seymour, which he would convey to the negotiating committee, and report back as to acceptance or otherwise.

School properties had been advertised for sale, and tenders for same had been received as follows:

For the Cardiff School: Marcel Talkeur \$810.00, Fred Rokenfohr \$500.00.

It was decided not to sell the Cardiff School at this time.

For the Ste. Claire school house: Stanley Godbout \$400.00, Moravian Church Board \$375.00.

For the Ste. Claire school barn: Laurence Roque \$250.00, John Cherniak \$210.00, Zephyr Normandeau, \$155.00, Stanley Godbout \$50.00.

For the Ste. Claire Teacherage: Stanley Godbout \$100.00, John Cherniak \$100.00.

For the Ste. Claire school-site, shed and pump: E. C. Langlois \$100.00.

For the Federah School: Moravian Church Board \$250.00.

For the Danrohin School: P. H. Farnan \$300.00; Alcile Sabourin \$150, Jos. Farnan \$50.00.

It was decided to accept the bid of Laurence Roque for the Ste. Claire barn. Not to accept the bids for the Ste. Claire School, teacherage or site. And not to accept the bid for Federah School.

The regular monthly accounts were submitted to the Board by the secretary-treasurer. These were ordered paid on the motion of Mr. McCue.

A delegation from the Paradis School District called to interview the Divisional Board. The purpose of the interview was to discuss the question of the inclusion of the Paradis R.C.S.S.D. in the Sturgeon School Division.

After discussion the Divisional Board agreed to accept the inclusion of the Paradis S.S.D. in the School Division on the following conditions: The Paradis R.C.S.S.D. to transfer all assets

and liabilities to the Sturgeon School Division at the time an agreement is ratified by the Department of Education.

The Sturgeon School Division to provide tuition up to and including grade eleven. To provide bus service to the pupils of Paradis R.C.S.S.D. To move the Paradis School to the site of the Saskatchewan School at Lamoureux. To move the teacherage at Paradis to where required by the Divisional Board.

Mr. Lamoureux, secretary of the Paradis R.C.S.S.D., informed the Divisional Board that a meeting of the representatives of the Paradis R.C.S.S.D. is to be called for July 21 to discuss the proposal of inclusion, and the Divisional Board will be notified of the result of this meeting.

St. Albert School.—On Motion of Mr. Ross it was decided to construct a medical room over the corridor in the new school at St. Albert at a cost of \$1,119.88, provided the architect approved of this addition. The cost to be covered by the credit allowed on the cost of hardware.

On the motion of Mr. Allen it was decided to sell the land, the site of the Robin Hood School to Daniel Uchacz for the sum of \$200.

On the motion of Mr. Cunningham it was decided to borrow the sum of \$1,000 from Rev. Father A. McIntyre for a period of one year, without interest. This was to cover the cost of moving Robin Hood School to Riviere Qui Barre to provide a third room for the Camilla School District.

Mr. Scott, superintendent, reported that the following resignations have been received: Mr. J. E. Andrusie, Miss Anne Kraychik, Mr. Ralph D. McLean, Mr. Teras Kulka and Mrs. Katherine Sustrik. These resignations were accepted by the Board.

The following new appointments were approved by the Divisional Board: Mr. William Tanasuk, Principal, Namao School, Mrs. Theresa Patterson to St. Albert School, Mr. Steve Kalita to Namao School, Miss Natalie Goresky to Namao School, Miss Yvonne Somerville to Gibbons School, Miss Roseanna Landry to Bon Accord School, Mrs. Ellen Greenway to Alcomdale School, Mrs. Marcella McGillis to Camilla School; Mr. W. A. Coward Principal Calahoo School, Miss Victoria Whyte to Calahoo School, Mr. J. E. L'Heureux to St. Charles School. The question of closing Fron-

tenac School was discussed. It was decided to call a meeting for Saturday, August 2, at 2 o'clock at the Frontenac School to discuss future operation.

It was also decided to call a meeting at the Volmer School for Thursday, August 7, at 2 o'clock in the afternoon, to discuss operation.

The time for admittance of beginners to school was discussed. It was decided to set the deadline for admittance of beginners at December 31st.

Messrs. Neil McKernan and Howard Bouey, architects, called to interview the Divisional Board. Plans for the new school at Legal were considered. The Board ap-

proved the plans as submitted.

It was decided to purchase additional land for the Dunrobin S.D. at a cost of \$600 plus an additional \$100 towards the cost of moving the house on this property to another location.

The resignation of John C. Brumfit covering school bus routes for the Cloverdale, Heathfield and New Lunnun school districts, was accepted.

Mr. Cunningham's Notice of Motion of March 19, 1952, re additional debenture loan of \$25,000 was ordered tabled until the year 1951.

Mr. Gordon Ambler was engaged to clean the chimneys and furnaces in the schools of the Division at

same rates as prevailed last year. It was decided to open an additional room for the Legal School if the Sacred Heart Convent at Legal would provide this accommodation.

The date for the next meeting was set for August 7. The meeting adjourned at 2 o'clock Friday, July 11.

162 eggs, or 13 and a half dozen, were laid by the average Canadian hen of over 100 months in 1951.

The world would be happier if men had the same capacity to be silent that they have to speak.

Alberta's Wealth Goes to Wall Street!

We Can Keep It Here in Alberta

IF YOU VOTE C.C.F.

A C.C.F. Government in Alberta will establish a Province wide rural electrification system through a publicly owned Power Commission.

If you want rural electrification on your farm — vote for your C.C.F. candidate. The C.C.F. is the only party in Alberta pledged to provide farmers with electric power through a publicly owned power commission.

CUT MUNICIPAL COSTS! Demand Oil Money for Hospitalization!

Your taxes should be lower! Oil Surface rights should be kept for the benefit of all Alberta taxpayers.

90 Delegates . . .

(Continued from Page 1)

the FWUA, reported on the work of the women's section. She dealt with health, education, social welfare, health units, etc. She spoke of a leadership course to be sponsored by the FWUA for FWA men, women and juniors.

Eighteen resolutions were dealt with. These included: resolution of union dues through municipalities, royalties to surface owners, drilling of test holes, rural electrification, floor prices on eggs, requisitions on farm property, scholarship fund, protection of livestock on highways, trespassing on farms.

In the election of officers, Mark Reffin was elected director, Charles Sealey was acclaimed vice-director and president, Mrs. Olive Harrold elected FWUA director and Mrs. C. D. Fuhr alternate director and vice-president.

Mrs. W. C. Taylor of Wainwright, president of the FWUA was then called upon to address the convention. She spoke on the work of the FWUA in acting on various committees outside the organization, compiling information entitled "Facts for Albertans." She also spoke on legal services, wills, community property insurance, pensions, income tax (consultants, exemptions, when a net worth statement must be filed), leadership course, cook book, teaching agriculture in schools, revolving fund for those beginning to farm, and various other topics.

Henry Young, president of the FWA told the convention that there would be an interprovincial conference in Saskatoon on July 17 and 18, and what would be discussed. He spoke of the activities of the past year, the international wheat agreement, Co-op packing plants, rural electrification, car insurance, Co-op implements, marketing boards, sand and gravel case, etc. He drew the attention of the convention to the coming election that the FWA does not take sides in politics but that the members see that the candidates for whom they are voting are in accord with union policies.

The late publication of this convention is due to the extremely busy time at the Edmonton office. Elections are everybody's business, and a printing plant is no exception!—Ed. Note.

Legal News Briefs

The famous Lac Ste. Anne was again the source of great attraction in the occasion of the annual pilgrimage of Good Ste. Anne Wednesday and Thursday of last week. A good number of the Legal residents were present at the solemn ceremonial which takes place on such an occasion. It is hoped that their prayers were heard by the Good Ste. Anne and favors obtained as desired.

While many families of the district are visiting parents down south, in return many eastern families are visiting parents in the west. Mr. and Mrs. Philippe Desjardins and their son Maurice were here last week to visit the families of Roger Cyr and Lucien Cyr. They are from Duchesne, Quebec. Their trip was made by plane to Edmonton where Mr. Desjardins and his wife visited a brother, Mr. Charles Desjardins. After a short stay here in Legal, they flew home. Their son Maurice remained in the west where he is going to find a job.

M. Andre Sylvestre received a brother of his from Ontario, whom he had not seen for quite a few years. Mr. Sylvestre wishes to move from Ontario to establish residence in this district.

Two sisters of Mrs. Ernest Letourneau and Mrs. J. B. Coulombe, Mrs. Yvonne Lacaille and Mrs. Dolores Robitaille, both from Rhode Island are visiting their parents here in Legal and St. Albert. They will be here for a

month. These sisters have not seen each other for more than 15 years.

Also from Kimberly, B.C., visiting parents here in Legal, are Miss Constance and Miss Francoise Garneau, daughters of Mr. Joseph Garneau.

Here from Seattle were Mr. and Mrs. Fred Garneau. Mr. Garneau has a brother here, Leo, and also other brothers in Edmonton.

There were also visitors here from the clergy of Montreal: Canon de Martigny, a brother of Sister de Martigny of this parish, assistant accountant of the Cathedral of Montreal, and Father Albert Henri, chaplain of the Ste. Jeanne d'Arc hospital in Montreal. Both made the trip from Montreal to Vancouver and back by Banff and Jasper.

Also in Legal last week were

Mr. Hicnel Cyr, son of Mr. Kent Cyr, of Slave Lake, and Mr. and Mrs. Bernard Theroux, who left Legal a few months ago to reside in Slave Lake.

Relatives of Father Langevin from St. Vincent, Mallaig and St. Lina were here last week. They were Miss Laura Brosseau, Miss Florence Brosseau, Mr. Rodrigue Hebert, all cousins, accompanied by the pastor of St. Vincent and his nephew, Ernest Farand. Also, from St. Vincent, Therese Langevin, Father Langevin's sister, Georgette Hebert, a cousin, and Mr. and Mrs. Roland Martin, brother-in-law and sister of Father Langevin, from Mallaig, as well as their three children, Wilfrid, Therese and Cecile, and another niece, Lorraine Gosselin from St. Lina. These last mentioned en-

Vimy News Briefs

Mr. and Mrs. Alphonse Bilodeau enjoyed a week's holiday in Banff and Lake Louise.

Mr. and Mrs. Alb. Fortier and Mrs. Aime Fortier visited their relatives in Falher.

Mr. and Mrs. Henry Bernard and their children Germain and Bobby, are spending a three week vacation at Alberta Beach.

Mr. and Mrs. Seguin from Edmonton spent the week-end in

Edmonton annual fair.

The frequent and abundant rains of these last few days have delayed the reconstruction of the Legal road leading to the highway.

Vimy at Mr. and Mrs. Wilfred Seguin's.

Mrs. Wilfred Seguin travelled to St. Paul where she will spend a few days.

Miss Diana Casavant from California is holidaying with her parents, Mr. and Mrs. A. Casavant.

Mr. and Mrs. Philip Fagan and their children have left for Alberta Beach. Also holidaying at the beach are Mr. and Mrs. Wilfrid Freveland and their family.

Last Thursday the Legal ball team visited Vimy and Legal, just by a score of 17-9.

Yvette Sabourin from Wealdack was visiting her parents, Mr. and Mrs. Sabourin.

It would

It would take a prodigious son, indeed, to expect a fatted calf these days.—Jackson Sun.

The Liberal Party's Progressive Program for a Better Alberta

● A Better Deal for Local Taxpayers . . .

The Provincial Government Will Pay—

50% of the over-all cost of EDUCATION
80% of the cost of WELFARE SERVICES
DOUBLE the present GRANTS FOR LOCAL AND DISTRICT ROADS

The Provincial Government Will Provide—

Interest-free loans for school and hospital construction
All municipal borrowings from the provincial treasury

The Provincial Government Will—
Restore and maintain local independence in all affairs

This Will Cut Your Tax Bill

● RURAL ELECTRIFICATION . . .

We Will Bring Power to the Farmer's Door—
At a Price He Can Afford to Pay — and Do It Now

● NATURAL RESOURCES . . . Coal, Oil, Natural Gas, Forests, Water Power

1. We will provide ADEQUATE RESEARCH FACILITIES to develop additional use for OUR COAL.
2. We propose to USE ALBERTA'S NATURAL RESOURCES FOR THE BENEFIT OF ALBERTANS, not just the government.
3. Only CANADIAN CITIZENS will be eligible to lease Natural Resources from the government of Alberta.
4. We will pay a Royalty of 2½% to the SURFACE OWNER.
5. We will force Performance on All Leases and cancel on default.
6. We will put a stop to the Social Credit Policy which keeps the price of gasoline and tractor fuel high.
7. We will act immediately to BRING THE BENEFITS OF CHEAP POWER and GAS to All Alberta Citizens.

We will consider the export of gas only after we are fully satisfied that Albertans have been fully protected as to Price, Supply and Economic Advantage—and Have Approved this Action by Plebiscite.

8. We will put a stop to the continued policy of neglect of our forests and streams, including fish and game, and substitute for it a POLICY OF CONSERVATION, DESIGNED TO PERPETUATE OUR RESOURCES.

ART SOETAERT

● HIGHWAYS . . .

We will bring to an end Social Credit policies which have wasted millions of dollars spent on highway construction. WE WILL BUILD SAFE—ALL WEATHER—ALL-SEASON—ROADS.

WE WILL BUILD HIGHWAYS THAT WILL STAY BUILT!

● HOSPITALIZATION . . .

We will make it possible for Alberta Communities to Build Hospitals where they are needed.

We will PROVIDE HOSPITALIZATION under a plan that will prevent illness or accidents from becoming financial disaster to any Alberta citizen.

● AGRICULTURE . . .

We will restore to agriculture the place and prominence which it had in the functions of government and policies in the days of the U.F.A.

We will provide legislation to HELP THE FARMERS CREATE and CONTROL THEIR OWN MARKETING AGENCIES.

We will again co-operate fully with the federal government to insure the FULL USE of our WATER and POWER RESOURCES to expand our irrigable areas and develop industry.

● LABOR . . .

We Will . . . BRING INDUSTRIES TO ALBERTA which will give you more and better jobs.

INVITE REPRESENTATIONS from and keep our door open to responsible LABOUR LEADERS, to insure a legislative program which will MAKE ALBERTA THE BEST PLACE IN CANADA for the Working Man or Woman.

Appoint a Minister of Labor with exclusive responsibility for Labor.

● EDUCATION . . .

We Will Again—

Emphasize the teaching of Reading, Writing and Arithmetic. Put a stop to the present courses designed to teach the children to bring up their parents. Establish Educational Facilities to Prepare Our Young Men and Women to fill the Important Positions in Industry, which will be created by our policy of development of our natural resources for the benefit of Albertans. Provide equality of opportunity in Education.

VOTE LIBERAL . . . VOTE "ART" SOETAERT

SUPPLEMENTING LOCAL TALENT at each Search for Talent Show which have been held in towns in northern and central Alberta since the past several seasons are Jack Dennistoun's Kaper Kuten Kronies, shown above. They present a one-hour variety show following the local contestants, while the audience casts ballots for their favorites and watches the score board for final results. Left to right: Eric Eichman, roller skater; George Kidd, master of ceremonies; Ron Watt, banjo; George Moir, accordion; Roy MacDonald, acrobatics; Alan Slaight, magical mysteries; Jack Dennistoun, producer, accompanist and vocalist; and Mel Gardner, roller skater.

Revolt In Social Credit Ranks Seen As Threat To Re-election

A growing rift in Social Credit ranks may hamper the government's chances of being re-elected next month, political observers forecast this week.

After 17 years in office the party appears to be heading into its second major internal struggle. The first was set off in 1948 over the cabinet's decision to shove Social Credit reform policies into the background in favor of concentrating on "good government."

SIX LOSE OUT

During the recent nominating conventions, six members of the legislature were denied renomination, and a seventh was expelled from the league. In addition, two other members, once official Social Crediters, are running as Independents. One of the six members denied nomination is also running as an Independent.

The six denied nomination were H. E. DeWolf, Spirit River; Clayton Dams and Dr. Lou Heard, Edmonton; J. W. Beaudry, St. Paul; W. S. Mackie, Stettler; and O. B. Moore, Ponoka.

In Leduc, R. E. Ansley has been denied support from the league after being expelled for assisting the campaign of Mr. Bouclier, but the local Leduc Association is supporting Mr. Ansley and will set out a candidate against him.

Opposition parties are expected to turn their big guns into the three constituencies with two S.C. candidates, in the hope of picking them off with the Social Credit vote being split.

Both Ansley and Bouclier went on record at the last session as opposing natural gas export. The member from St. Paul who failed to gain renomination, clashed with the cabinet over welfare policies of Dr. W. W. Cross, the minister of health and welfare.

The iron hold the cabinet has exerted on S.C. back-benchers is blamed by observers to be the cause of the small-scale "rebellion."

In most cases, the rank and file of the local constituency organizations is siding with the "rebels."

The decision of the Leduc Association in defying party bosses at Edmonton was described as "a revolt against subservience to a centralized political dictatorship."

Observers at the last session of

the legislature noted that S.C. back-benchers voted in strict accordance to orders from the cabinet, and the current rift is seen as the result of members tiring of being dictated to by the cabinet.

The gas export issue was an example of that. Back-benchers who opposed export left the house just before the vote, and abstained from voting. They thus did not defy the cabinet, neither did they vote for something to which they were opposed.

In addition to many rural members being opposed to gas export, one Edmonton S.C. candidate has admitted privately opposition to gas export.

Canada To Have A 'Sweater Queen'

MONTREAL, Que. — Canada's first sweater queen becomes an international ambassador with the announcement today of a trip to Jamaica as an additional prize in the current contest. The queen, who, as previously noted, will spend a gala week in New York, will spend her Good Will Trip to include a week's stay in Jamaica, vacation land of the British West Indies. It is expected, a spokesman of the contest's sponsor, the Grandmère Knitting Co., said today, that as a result of the queen's travel a better knowledge of Canadian style and beauty will be spread. Prizes to the winner of the contest also include a full wardrobe of Canadian fashions.

The queen, who will fly from New York to Montserrat Bay, Jamaica, via BOAC, will stay at the Tower Isle Hotel located on the site of ancient struggles with the Spanish. A replica of a tower fortress, erected by the Spanish Don, stands on the tiny islet just offshore from which the hotel takes its name. The queen's reception in the United States has already been indicated in a recent comment in a New York interview with Harry Conover, ace beauty expert who attributes the Canadian girl's high standards of beauty to her more healthful outdoor way of life. The new "Ambassadress" is to be selected as the finest in who-at-one beauty from all Canada.

SOUCH CLINIC

Parking in rear for patients

\$1 for Favorite RECIPE

DATE LOAF
1 cup chopped dates,
1 egg,
1½ cups boiling water,
4 tablespoons butter,
1 cup brown sugar,
1 tsp baking soda,
2½ cups flour,
1 tsp baking powder,
¾ cup chopped walnuts,
1 tsp vanilla.

Sprinkle soda over dates and add boiling water. When cool add sugar, butter, egg and other ingredients. Place in loaf tin and bake in moderate oven (350 degrees) about one hour.

(Mrs. A. Rauch, Delta, Alberta, is this week's recipient of a check for \$1.00 for submitting the above recipe for date loaf. Send your Favorite Recipe to P.O. Box No. 4388, South Edmonton.)

LEMON PIE

Line three pie plates with plain paste, thinly rolled. Fill with lemon filling and cover with plain paste thinly rolled. Bake in a hot oven 35 minutes. For the filling mix the grated rind of two lemons, four tablespoons of lemon juice, two cups of melted butter, quarter cup of bread flour and half cup of hot water. When thoroughly blended add white of two eggs beaten stiff. This makes a good filling for tarts.

(Miss Opal Baxter, Whitecourt, has been sent a check for \$1.00 for sending the Favorite Recipe Editor this Lemon Pie Recipe. Send your Favorite Recipe to P.O. Box 4388, South Edmonton.)

Plan Experimental Farm Station To Serve Vegreville Constituency

An Experimental Farm Station to study ways of improving farming methods and production may soon be established in Northeastern Alberta as a result of efforts by John Decore, Liberal M.P. for Vegreville.

The matter was raised recently in the House of Commons by Mr. Decore, and fairly definite assurance has been given by the Department of Agriculture that an experimental farm will be established in the Vegreville constituency. It is probable a large scale illustration station will be set up first, and then expanded to an experimental farm.

The closest experimental farm to the area is presently located at Lacombe, nearly 200 miles away. In his address to the Commons, Mr. Decore said, "One cannot overestimate the value of experimental farms. Such expenditures by the government are, I believe, a great investment for the benefit of agriculture in this country."

Mr. Decore continued: "Apart from the value of these experimental farms from the standpoint of making experiments, I believe the greatest value must be placed upon the educational facilities these farms offer to people in and around the communities in which they are located. Farmers have the opportunity of seeing for themselves the type of work being done. The experimental farm will serve a surrounding area of about a hundred miles."

"The Vegreville constituency, which I have the honor to represent, is the most densely populated rural area in Western Canada. Nearly all the people there depend on agriculture, and the farmers are interested to such a degree that some of the stock breeders have received national recognition for their stock at various livestock shows. There are a number of farmers in my constituency around Spedden, Two Hills, Vilna, Andrew and Hairy Hill who have received world recognition for the grain production."

Soil Problem
Mr. Decore then quoted a report from G. E. DeLong, superintendent of the Lacombe experimental farm, which pointed out that in the Vegreville area "a serious soil fertility problem has developed over a period of years. The continuous practice of grain growing has depleted the soil with the result that yields have dropped off rapidly in recent years."

Dealing with suggestions that an illustration station is adequate for the Vegreville area, Mr. Decore quoted William Padenhoe, district agriculturist of Vegreville:

"I have been observing the operation of illustration stations at other centres and feel that this type of set-up has very little to offer for the district. The illustration station set-up may have some value in certain areas of the province but in this area I do not think it is worth the cost. An experimental station which could be operated on the same basis as those at Lethbridge, Lacombe and Beaverlodge."

Long-Term Plans
In response to Mr. Decore's representations for an experimental farm, Agriculture Minister Gardiner told the House that the Vegreville area requires some "special attention," and that an illustration station could be started at first and later expanded into an experimental farm.

Mr. Gardiner said, "There is no special vote for it (the experimental farm) in our estimates of this year. There is a general vote for illustration plots... which could be enlarged upon and something could be started this year and be developed into something better. Beaverlodge was started as

JOHN DECORE, M.P.

an illustration station... and we want to get started (at Vegreville) and as we go along and have experience with it we will be able to do even more than is expected by some."

Delmar Spargos Guests Of Honor At Wedding Party

ALCOMDALE About 300 guests attended a wedding party in honor of Mr. and Mrs. Delmar Spargo in the community hall, Mr. Albert Menzies, as M.C., presented the happy couple with a purse of money, for which Mr. and Mrs. Spargo expressed their sincere thanks. At midnight lunch was served. Before dancing resumed everyone sang "For they are jolly good fellows."

The newlyweds will be making their home in Alcomdale.

Out of town guests were Mr. and Mrs. Albert Menzies, Falls; Mr. and Mrs. Rose Spargo, Edmonton. Miss Dolly Gordon of Edmonton is the guest of Mr. and Mrs. Arthur Gill.

Miss Donna Simes of Ft. Saskatchewan is visiting Mr. and Mrs. Bill Simes.

Mr. Bill Spargo is patient in the Royal Alexandra Hospital. Visiting Mr. and Mrs. Emil Ricard are Mr. and Mrs. Laurier Ricard and Mr. and Mrs. Noel Ricard of Yakima, Wash.

West Busby News Briefs

Large road equipment is working on Dabson Hill which will be much improved. This hill has caused a great deal of trouble to motorists in summer when it is muddy and in winter when it is icy.

The Sewing Circle held a successful meeting at the home of Mrs. Young. The next meeting will be at the home of Mrs. Wilcox.

Edward Frederick is attending summer school in Edmonton.

Robert Leahy and Gary Atkins have returned from an enjoyable trip to Banff, Lake Louise, British Columbia and points in the U.S.A.

An oil company is drilling on the farm of Roy Kraser.

Mrs. Jim Ethridge has had her two sisters holidaying with her.

TOO MUCH FLUORIDE

TOKYO—Japan is one country where they don't have to add fluoride, with the result that many citizens have mottled teeth. Scientists blame the fluoride condition of the water on Japanese volcanoes.

Garden Club Competition To Be Held

ST. ALBERT—The Garden competition will again be held in St. Albert and district, about Aug. 7. Three classes are open for judging: small home gardens, farm gardens and home landscaped grounds.

You may enter this contest by giving your name to your Women's Institute neighbor.

Mrs. H. McDonald returned Monday from Camp Gilwell at Sylvan Lake after enjoying a week of training and activities for Cub and Scoutmasters.

Pretty Wedding Solomonized

REXBORO Anglican Church was the scene of a pretty wedding on Thursday, July 3, when Shirley Elaine, youngest daughter of Mr. and Mrs. Frank Winters of Alibi became the bride of Delmar D. Spargo, son of T. Spargo of Alcomdale.

The double-ring ceremony was performed by Canon Mathews of Onoway.

The bride, who was given in marriage by her father, was gown-chanted in a floor-length gown of chintilly lace and nylon net and wore a chapel veil with flowered headpiece. She carried a colonial bouquet of red sweetheart roses and stephanotis. Her only jewellery was a gold chain and pearl pendant that had belonged to her grandmother.

Mrs. Francis Lardink, sister of the bride, was matron of honor and wore a mauve gown of chintilly lace and net and carried a colonial bouquet of spring flowers.

The bridesmaids, Miss Louise Clark and Miss Rose Spargo, sister of the groom, wore identical gowns of pale green lace and net and carried colonial bouquets of spring flowers.

The groom was attended by Mr.

"I know they're a bargain, Smithers, but shouldn't you have a car too?"

John Lebbe of Alcomdale, Charles Lebbe and Maurice Ferras of Alcomdale were ushers.

Mrs. Winters chose for her daughters' wedding a dress of navy sheer with white accessories and wore a corsage of red roses and stephanotis.

Following the ceremony a buffet luncheon was served to about 50 guests in the Rexboro Hall.

The bride's table was centred by a three-tiered wedding cake flanked by tapers and bouquets of peonies. Rev. Canon Mathews proposed the toast to the bride.

The hall was tastefully decorated with pink and white wedding bells and streamers.

Following a dance in the evening, the young couple left for Edson and Jasper.

The bride chose a ballerina suit of white Ottoman cord with pink and navy accessories and

wore a corsage of pink sweetheart roses and stephanotis for travelling.

They will make their home on the groom's farm at Alcomdale.

Civil Defence Reminder

ST. ALBERT—A public meeting will be held in the St. Albert community hall on Sunday, July 27, 8:30 p.m., to hear speakers and see films from Edmonton headquarters on Civil Defence.

You Can

You can tell when an industry is losing money. Its leaders begin to believe in government ownership.—Oil City Derrick.

Elephants, alligators, turtles and poll parrots have an average life span of 100 years or more.
